PROJECTS

● HarryPotter Flying Game

This project is a simple, **canvas-based** game where the player controls a character (Harry Potter) that must avoid obstacles (Dementors) coming from the right side of the screen. The game mechanics are inspired by the popular mobile game "**Flappy Bird**".

● Movie Finder

Developed a movie search application using **React**, **Axios**, and the **OMDb API**. The application allows users to search for movies, view a list of search results, and select a movie to view detailed information.
